

● **Position Perfect® Wedges**

Immersive foam allows for proper sacral offloading and fluid barrier for infection control

● **ComfortTop® ES Absorption Pad**

Provides exceptional strength and moisture wicking capabilities, oversized to cover Repositioning Sheet for greater absorption area

● **Fitted Sheet**

Designed to fit over the hospital support surface to provide additional friction reduction. Adjustable to fit most bariatric hospital beds

● **Anchor Straps**

Securely keeps Repositioning Sheet from sliding down in bed

● **Repositioning Sheet**

Low friction nylon reduces effort to reposition patient, with inner foam core that helps minimize bunching under patients
